Safety Deposit Box

Jim Vallort
Senior Vice President, ESD
 CHICAGO, IL

Jim Vallort has spent his career focusing on energy: ranging from measuring energy usage, optimizing the systems, integrating automation to control energy and the impact of commissioning on energy consumption.

Jim is a Senior Vice President with ESD headquartered in Chicago, IL, a consulting engineering firm. Jim also serves as an ASHRAE Society Vice President for the 2015-2016 Board of Directors. He currently serves as a member of Standard Project Committee 211P, Standard for Commercial Building Energy Audits, and Technical Committee (TC) 7.9, Building Commissioning. Jim previously served on the Board as a director-at-large in 2005-08 and as Region VI director and Regional Chair in 2001-04.

Jim has over 20 publications and numerous presentations under his belt on topics ranging from Energy Efficiency, Automation and Commissioning to Underfloor Air Distribution. He has been an invited speaker at multiple fortune 500 companies educating their staff on building automation, energy efficiency, existing building commissioning and new construction commissioning. He brings a unique perspective on the constructability and real world aspects of our industry having been a union pipefitter, spent years in the field commissioning projects, combined with the experience as a mechanical designer, building automation designer and energy modeler.

Jim's greatest joy at work is teaching and mentoring others on the mix of art and science that is required to solve today's challenges in the engineering community. Vallort is the recipient of the ASHRAE Exceptional Service Award, ASHRAE Distinguished Service Award and an Excellence in Engineering Award from the ASHRAE Illinois Chapter in 1998.

Jim Vallort plays a large role in organizing one of ASHRAE's largest, best-attended, and most profitable Conferences held in Chicago every three years. Vallort served as advisor to the most recent 2015 ASHRAE Winter Conference; co-chaired the Chicago meetings in 2012, 2006, 2003 and 1999; and served as chair of the ASHRAE Centennial Meeting in 1993; he organized the Technical Tours and was on the Entertainment Committee for the 2009 Chicago Winter Conference. His earlier service includes Technology Council, the Planning Committee, the Standards Advisory Committee and a presidential ad hoc Committee on Certification. He also served as chair of the CIBSE/ASHRAE 2000 Joint Conference Steering Committee, the Member Council ad hoc Committee on Young Engineers (YEA) and the Society Program Committee and vice chair of the CIBSE/ASHRAE 2003 Joint Conference Steering Committee. He was president of the Illinois Chapter in 1999-2000.

**Intelligent Buildings: Technology Is Changing What Is Possible
 In The Built Environment**

GBCI Approved | 1 CE Hour 0920010404

AIA Approved | 1 LU JVALLORT01

There is a lot of buzz around Intelligent, or Smart, Buildings, but what is an Intelligent Building? This presentation will examine the answers to this question and how you can put your building on its path to a "higher education".

Advancements in technology have given the engineer the ability to aggregate and share data across disparate systems thereby creating opportunities to increase energy and operational efficiencies, improve occupant comfort, safety, productivity, and enrich the visualization capabilities for the organization's numerous internal and external stakeholders. The intelligent building platform will result in a more efficient, secure and productive asset that has the capacity to continuously improve over its lifetime.

Bruce K. Wylie

Research Physical Scientist, USGS Earth Resources Observation and Science Center

SIoux FALLS, SD

Phone: 701.321.3040

Email: wylie@usgs.gov

Office: 47914 252nd St, Sioux Falls, SD 57198

Orchid author ID: 0000-0002-7374-1083

ResearchGate H index: 38.69 (>95% of members)

Education

- 1991 Ph.D. Range Science, Remote Sensing (Minor), New Mexico State University, Las Cruces
- 1989 M.S. Range Science, New Mexico State University, Las Cruces
- 1979 B.S. Range Management, University of Montana, Missoula

Professional Experience

- 2009-Present Research Physical Scientist USGS EROS, Sioux Falls, SD
- 2008-2009 Scientist ASRC Research and Technology Solutions at USGS EROS, Sioux Falls
- 2002-2008 Principal Scientist SAIC at USGS EROS, Sioux Falls, SD
- 1996-2002 Principal Scientist Raytheon at USGS EROS, Sioux Falls, SD
- 1994-1996 Research Associate Augustana College, at USGS EROS, Sioux Falls, SD
- 1991-1994 Post doc, Great Plains Systems Research, USDA ARS, Ft. Collins, CO

Currently Active Grants

- 2007-2018 USGS Program Biofuel, C flux, and Cheatgrass (PI) / \$462,900/yr
- 2017-2018 Fish and Wildlife Service, Downscaling cheatgrass maps from 250m to 30m at selected wildlife refuges (PI) / \$13,000
- 2017-2018 Bureau of Land Management: "Great Basin Cheatgrass" (PI) / \$80,000
- 2017-2018 USGS Land Remote Sensing program Harmonizing Landsat and Sentinel (PI) / \$60,000

Alaska Land Cover Change

Bruce will discuss a new publication illustrating the probability of land cover change in Alaska and exploring the drivers of carbon and permafrost in Alaska. He will share his research and field work and talk about the potential impact of his findings for the lower 48 and Europe.

Thursday, August 2

Golf Outing / \$75

8 am-3 pm - [Willow Run Golf Course](#)
Transportation to and from hotel, 18 holes, cart, and lunch included.
