PRESIDENT'S MESSAGE GREGG WELCH

The November 3rd, 2004 meeting will be Past Presidents' Night. The social hour will be at 5:30 p.m., dinner at 6:30 p.m., meeting and program to follow. In addition, we will be having our first ever spouses night. Your challenge for the November meeting is to bring your spouse to enjoy the evening. You never know, our membership chair may be busy signing up new members!

Our Honors and Awards Committee will present the South Dakota Chapter's annual "Lifetime Achievement" award. Past recipients of this esteemed award have had long, distinguished careers in our industry. We certainly appreciate all the efforts from past leaders. This award is just one way to recognize an individual at the local level of ASHRAE.

Please make an assertive effort to attend this special meeting in honor of the 'Past Presidents'.

See you at Westward Ho on Wednesday evening.

PROGRAM—CTTC GREG HINTGEN

Thanks again to Scott Fleet from Detroit Radiant for his program last week. We had good attendance and he provided some useful information on design and theory.

This month, for past president and spouses night, we will be having Steve Metli from Sioux Falls Planning. He will be discussing the future direction and growth of Sioux Falls. If you have an question you want answered, please send them to Gregg Welch so he can forward them to Steve.

Mark your calendars for next month because we will be having Daniel Chudecke, Technical Services Director, from BJ Mulcahy in Minneapolis. Last year Dan did a presentation in the afternoon as well as at the meeting, and will be doing the same this year. He will be doing a 3 hour program on Steam in the afternoon and then that evening he will be giving his world famous "Start-up and commissioning of Hydronic Systems" program.

This will be a great way to pick up a few additional continuing education credits. The schedule will be similar to last year and will provide 3 credits.

The Board of Governors are suggesting that a donation be made to research for the continuing education class. Suggested donations are \$10 to attend the course, and an additional \$40 if you are going to use the education credits. Please bring payments to the class.

The class will begin at 1:30 PM on December 8th and be concluded by 4:30PM. The Class will take place at the office of Climate Systems, 3005 West Russell Street, Sioux Falls, SD.

Please RSVP to me at (605) 362-5315 or gregory.j.hintgen@jci.com
See you at the Ho!

SECRETARY KASEY ABBOTT

Notice to all SDSU Alumni!!!!

You now have the opportunity to help your alma mater and ASHRAE.

Our chapter recently established the SDSU South Dakota Chapter of ASHRAE Scholarship. Chapter and private contributions will be used to fund current scholarships and an acorn endowment. When the acorn endowment reaches \$10,000 the funds will be moved to a standard endowment account, with the interest being used to permanently support scholarships.

So when you get that inevitable phone call from SDSU, tell them that you want your contribution to go to the South Dakota Chapter of ASHRAE Scholarship!
