## PRESIDENT'S MESSAGE

**Kasey Abbott**

Let's do lunch at the Westward Ho on Wednesday January 9.

Lunch buffet will be served starting at 11:30 AM, with the program running from 12 to 1 PM. We have a very interesting program from Karl Oelker with Steril-Aire:

### **Benefits of Ultra Violet Lights in Air Handling Systems**

You will also want to catch our program the evening of February 6<sup>th</sup>. ASHRAE President Kent Peterson will be presenting the talk that he gave at the national meeting:

### **Greater Efficiency Today, Blue Skies Tomorrow** *Innovation for a Sustainable Built Environment*

This is a rare opportunity to meet a current ASHRAE president and it is a wonderful opportunity for us to invite non-ASHRAE members to the meeting. Guests are always welcome to attend our meetings provided they RSVP.

**Please RSVP** for the January 9<sup>th</sup> lunch meeting to [jill.beatty@ddcontrol.com](mailto:jill.beatty@ddcontrol.com) by Friday. Or call her at 575.3739 if that is more convenient.

Finally, for your information we have passed along a copy of ASHRAE's Members First! Newsletter. This newsletter is issued after each Technology Council meeting to provide highlights of ASHRAE technical activities and keep members informed. ASHRAE's goal is to make the work of the technical side of ASHRAE open to all ASHRAE members.

Hope you had a joyous holiday season. See you for lunch on the 9<sup>th</sup>.

### Benefits of Ultra Violet Lights in Air Handling Systems

#### Karl Oelker with Steril-Aire

Karl Oelker's background includes more than 25 years' sales experience to his post as Central Region Manager, serving in a variety of technical markets. He comes to Steril-Aire from ProProducts, Inc. (Princeton, Minn.), where he was a Regional Manager for this manufacturers' representative and distribution firm serving the commercial and industrial sectors. His prior experience includes regional, national and international executive sales management dealing specifically with distribution, business development and independent sales representation. His technical background includes sales of electronic interconnect methods and systems to aerospace, military, medical and industrial markets. Oelker holds a Bachelor of Science degree from Minnesota State University Moorhead. He is a current member of the Council of Supply Chain Management Professionals (CSCMP). His territory includes Arkansas, Iowa, Kansas, Nebraska, Oklahoma, North and South Dakota, Minnesota, Missouri and western Wisconsin.
