PRESIDENT'S MESSAGE Wade Myrabo

ASHRAE 2008-2009 March meeting, Wednesday March 4, 2009 at Westward Ho!

The state basketball tournaments are just around the corner and the state wrestling tournament will be over by the time you receive this. That usually means that spring is just around the corner from here and I can't wait for it. I hope everyone that went to Worthing had a good time at the play and enjoyed a good meal. My son wrestled in the region meet on Thursday and Friday night in Hartford so I couldn't make the play, my apologies to Jeff Rentschler who set up the event. We have another great program lined up by Rob Marshall, it is on Temperature and Humidity Control in Hospitals, Museums, Schools, Offices and Industrials by Dan Pollock – See Rob's announcement below. This month we will be having another lunch meeting on Wednesday.

Please join us and see another great program. Lunch buffet will be served starting at 11:30 AM, with the program running from 12 to 1 PM.

Again, if you have any questions on any ASHRAE items, contact me, any board, or committee members. We would be glad to answer any of your ASHRAE questions. I hope to see you all at the HO on March 4th!!!

Please RSVP for the meeting to krystal.hermanson@ulteig.com, or call (605) 323 6043 if that is more convenient.

CTTC Rob Marshall

I am pleased to introduce Dan Pollock from Trane as the guest speaker at this month's ASHRAE meeting. Dan will be speaking on:

Temperature and Humidity Control in Hospitals, Museums, Schools, Offices and Industrials

Dan Pollock is the Trane System Specialist for Advanced Airside System Controls. He has a deep knowledge of building and HVAC system controls needed to control all aspects of indoor air quality and the related system energy. He developed some of the control strategies used in the ASHRAE HQ near net zero HQ renovation. He has been a featured speaker on advanced desiccants and HVAC systems to ASHE, ASHRAE and other industry meetings. BSME, MBA from the Univ. of Wisconsin.
