Merry Christmas and Happy Holidays! I hope you all enjoy a little time off with friends and family and remember what is truly important in life.

This year has gone fast. It's hard to believe we are already half way through our ASHRAE year.

The Board of Governors would like guidance on the Valentines event. There's a question about it in this month's RSVP survey, so please take the survey regardless of if you plan to attend the January meeting.

I know several of our chapter members will be heading to Chicago for the ASHRAE/ AHR Expo in Chicago for the 2012 Winter Conference. DRC Rich Bowman sent the following message regarding the Region IX dinner:

"This year's regional dinner is at Giordano's Pizza, 223 W. Jackson Blvd, Chicago, IL on Monday January 23, 2012 at 6:30. Please email Rich Rose at RichR@mticontrols.com if you are attending."

Regarding our new attendance tool using surveymonkey.com, the numbers have been almost exact with the people that are signing up compared to actual attendance, which saves the chapter money by not having to pay for meals for those that do not attend the meetings. If you forget to sign up or decided to show up at the last minute, please don't hesitate to come to the meeting. We can't promise a meal, but based on past meetings, there is usually plenty of food.

See you at the HO!
-Greg

Meal Cost: \$10 Noon, \$12 Evening

For the January meeting we are pleased to have ASHRAE Distinguished Lecturer Victor W. Goldschmidt present at the evening meeting and also an afternoon session. The presentations may be "Problem solving and Myths in HVAC&R", "Sustainability and Electrical Energy Production", or another topic of current interest, no pun intended. Please see Victor's Biography below.

ASHRAE BLUEPRINT

VICTOR W. GOLDSCHMIDT, Ph.D.

Professor Emeritus, Purdue University School of Mechanical Engineering
Northport, MI

Victor W. Goldschmidt, Emeritus Mechanical Engineering Professor, served at Purdue University from 1964 through 2000. He is currently serving as a Leelanau Township Trustee and Planning Commissioner as well as a facilitator and engineering consultant.

During his 36 years at Purdue University, Mr. Goldschmidt was responsible for educating mechanical engineering students, including the direction of graduate research in the HVAC area. Most of his service with graduate students was with the Ray W. Herrick Laboratories with heavy support from the HVAC industries. During early stages of his career, he served as Director of the Engineering Purdue Fellows in Latin America; during later stages he served as department head for Freshman Engineering. Prior to his academic involvement, he worked in Applications Engineering and Development Engineering with Honeywell.

Mr. Goldschmidt has taught almost every course in thermal sciences offered at Purdue, as well as a special upper level technical course on the "Creative Process in Engineering." He is trained as a Syntectics (special brainstorming) facilitator and is currently engaged in the development of strategic plans and problem solving sessions.

A past ASHRAE Director-at-Large, he also has served as a member of Publishing and Technology Councils. He is an ASHRAE Distinguished Service Award recipient and Fellow, as well as Honorary Member of IIR, ACAIRE, ASURVAC and AAF. He resides in North Michigan, above Traverse City.
