## PRESIDENT'S MESSAGE

Ryan O'Connor

**Chapter Meeting: Wednesday October 7th @  
Westward Ho (The Country Club of Sioux Falls)  
Social 11:45, Lunch 12:00, Program 12:30-1:00**

**RSVP at our Chapter homepage ([www.sdashrae.org](http://www.sdashrae.org)) no later than Noon on Monday, September 7th. <http://sdashrae.org/meetinginfo.php>.**

One of these days the weather is going to turn colder, but for now I'll take these brisk mornings and sunny afternoons.

Sunday night's blood moon was an interesting lunar experience, but hopefully you're not getting caught up in the blood moon prophecy popular on the internet. Pop quiz: how many prophecies predicting the apocalypse have come true?

As long as making prophecies is in vogue, I'll make mine: "In 3 years South Dakota will have an energy code." While this may not have the ramifications of an apocalypse, it will have an effect on South Dakota.

Kristi Honeywell might be able to help us understand the State's plans for the future, what obligations we have for adopting an energy code, and the implications on our industry.

See you at The Club,

Ryan

Guest Speaker: Kristi Honeywell, South Dakota's State Engineer

Kristi Honeywell, M.S., P.E. has been in her current position as South Dakota's State Engineer since 2007. She has worked in the engineering field for 22 years, 14 of which were with the Department of Environment and Natural Resources in Pierre. She earned her Master of Science Degree in Civil Engineering/environmental emphasis from the University of Missouri in 1992 and she is a South Dakota registered professional engineer.

Presentation Title: State Government's Energy Reduction Efforts

The State of South Dakota has made significant statutory changes in the last seven years to require state owned buildings be constructed to a green building standard. The presentation will include a short history of sustainability measures the State has made over the last seven years and their impact to building construction. The recent legislation requiring the use of the United States Green Building Council's LEED v4 and the rules changes associated with it will be discussed.

## The 2015-2016 South Dakota Chapter ASHRAE Line-up:
